

Field Service Technician – Swiss Style Machines

Introduction

Tornos Technologies, a global supplier of Swiss Style and Bar Milling manufacturing equipment, including the tooling, services, spare parts, wear parts, consumables and automation solutions that support these systems. Markets served by Tornos include: Aerospace, automotive, medical, tool and die manufacturing. Headquartered in Lombard, Illinois and an office in Bethel, CT.

We value our employees and their contribution to our success. Recruiting and retaining a winning team of employees dedicated to the company's mission and purpose is critical to Tornos' ability to service its customer's needs on a day-to-day and long-term basis.

We have an immediate opportunities for a technical and experienced Field Service Engineer. This individual will travel to customer locations to install and service Tornos Swiss Style machines along with ESCO and Almac Machines. This position requires travel 4 -5 days per week.

Your profile

- Experience with our Deco machine line (*Deco-10, Deco-13, Deco-13b, Deco-20, Deco-26*), including our TB-Deco programming interface, machine setup, and mechanical repairs.
- Experience trouble shooting Fanuc Controls.
- Prior technical, mechanical and electrical training.
- Professional demeanor with excellent communication skills.
- Must possess a valid driver's license.
- Windows computer skills, including MS Office.
- A strong commitment to providing excellent customer service.

Our company offers a competitive salary and excellent benefit plan and scaled PTO and paid holidays.
