### **TITANS of CNC to host first exclusive event for Tornos' VIP customers in the United States**

**Moutier, Switzerland, August 24, 2023—Around 50 VIP American customers have accepted Tornos' invitation to an exclusive VIP event on August 24, 2023, at TITANS of CNC's headquarters in Texas. The event will give guests an insider's view of the world of the machine tool titan, which stands out for its completely free online academy to advance learners' bar turning skills.**

At the intersection of creativity, innovation and manufacturing mastery is the extraordinary educational initiative known as TITANS of CNC. Founded by Titan Gilroy, it has evolved into much more than a training facility. TITANS of CNC has become an invaluable source of knowledge and a truly global community of passionate manufacturers.

The very essence of TITANS of CNC lies in its commitment to pushing boundaries, breaking down the barriers of traditional learning, and spreading knowledge to every corner of the globe. With its infectious energy and unwavering determination, this organization embodies the philosophy of continuous learning and improvement.

At the heart of TITANS of CNC's strength is Gilroy, a man who overcame immense obstacles to become a master machinist and educator. His tumultuous journey, marked by adversity, today is a source of inspiration to thousands of people seeking to master the intricacies of manufacturing. Gilroy's bold vision to share the knowledge and skills he has acquired over the years has spawned a true educational revolution in the world of computer numerical control (CNC) machining.

TITANS of CNC is distinguished by its ability to make the complexities of CNC machining accessible to the novice, while providing advanced resources for the expert. TITANS of CNC's well-designed tutorials, high-quality instructional videos, and online resources enable learners of all levels to develop their expertise with confidence. From students seeking knowledge, experienced machinists looking to hone their skills, or a master machinists determined stay at the forefront of the industry, TITANS of CNC provides a platform where excellence is encouraged and celebrated.

Another TITANS of CNC strength is its passionate and engaged global community. Manufacturers from around the world come together to share experiences, ask questions and support one other's learning journeys. This community is a living testament to the positive impact TITANS of CNC has had, changing lives and opening up previously unimaginable horizons.

As TITANS of CNC is a beacon of manufacturing mastery, Tornos could not help but join this initiative to extend the reach of this beacon that lights the way for those who aspire to create, innovate and manufacture. Through their partnership, TITANS of CNC and Tornos demonstrate how the power of determination and continuous learning can overcome obstacles and inspire exceptional manufacturing results.

# TORNOS

At this exclusive, first-ever event, Tornos' VIP customers will see for themselves the state-of-the-art Tornos machines that TITANS of CNC uses in its mission to revolutionize technical education. The event takes place on August 24, 2023 at the TITANS of CNC facility in Grapevine, Texas. Guests will tour the facilities, attend a Tornos machine presentation, meet industry experts, network with other professionals and gain valuable insight into the latest manufacturing technologies.
